

Minibeasts

Booth Museum of Natural History, 60 mins, £4.00 per child

Can you tell an insect from an arachnid? Get up close with our amazing minibeast handling collection, find out more about their different characteristics and how to tell them apart.

- Please let us know of any SEND needs of your class before your visit.
- Please ensure suitable adult supervision.

Aims of the session

To enjoy your time with us

1. To closely observe scientific specimens of minibeasts, including spiders, butterflies, centipedes, moths, stick insects, bees and snails
2. To learn how to group, identify and classify
3. To learn how to identify the external features of invertebrate
4. To understand how adaptations of these invertebrates help the species to survive
